Smart Dublin Stand Activity Programme

Smart City Expo 2026

About Smart Dublin

Smart Dublin is a collaborative initiative of Dublin's local authorities that brings together local government, industry, academia and citizens to improve public services and enhance quality of life through innovation and technology. Through programmes focused on digital transformation, open data, smart mobility, sustainability and emerging technologies, Smart Dublin supports the development and testing of innovative solutions that help make cities more connected, efficient and citizen focused.

Join Smart Dublin at the Smart City Expo World Congress in Barcelona from **3-5 November** and discover how Dublin is using innovation, collaboration and technology to create smarter, more sustainable cities. Meet our team and ecosystem partners, explore real-world smart city projects, learn about our open data and digital transformation initiatives, and connect with local authority leaders driving innovation across Ireland. Whether you're a city representative, technology provider, researcher or innovator, our stand offers valuable insights, networking opportunities and potential collaboration pathways. Visit the Smart Dublin stand and help shape the future of smart, connected and people-centred cities.

Smart Dublin Stand Activity

Date	Time	Lead	Activity	Location
Tuesday 3rd Nov	12:00 – 12:45	Jack Kavanagh	RMIT Emerging Leaders Panel Discussion	Smart Dublin Stand – C187
Tuesday 3rd Nov	15:00 – 15:30	Alan Murphy	Collaboration Between Local Authorities and Organisations	Smart Dublin Stand – C187
Wednesday 4th Nov	14:30 – 15:30	Alan Murphy	VIP Exhibition Tour - Leading Cities and Gold partners	Smart Dublin Stand – C187

EIT Urban Mobility VIP Exhibition Tour

This guided visit will provide senior city representatives and mobility stakeholders with an opportunity to engage directly with Smart Dublin and its ecosystem partners. A key feature of the tour will be short showcases from UTS Technologies, Vimplo and NODE, highlighting practical mobility solutions, innovation pilots and opportunities for collaboration.

Collaboration Between Local Authorities and Organisations

Alan Murphy will provide an overview of Smart Dublin's collaborative model across the four Dublin local authorities, outlining how innovation challenges, open data, smart district programmes and partnerships with industry and academia are helping deliver better outcomes for citizens.

RMIT Emerging Leaders Panel Discussion

Jack Kavanagh, Open Data Lead at Smart Dublin, will contribute to a discussion examining how leadership, collaboration and technology can support more people-centred urban mobility. The session will explore governance, cross-organisational working, data sharing, scalability and the role of emerging technologies including AI.
